EDUCATION

University of California, Los Angeles
Bachelor of Science, Computer Science

Los Angeles, CA
Expected Graduation: Jun. 2027

EXPERIENCE

Senior Software Development Intern

Mar. 2025 – Present

Todd Agriscience

Remote

- Designed and deployed the company's **first client-facing dashboard and landing site** with **Next.js**, **Tailwind CSS**, and **Framer Motion**, providing AI-powered crop insights for the firm's initial **5–10 farming clients**.
- Linked backend inference pipelines to dynamic UI components, enabling visualization of **20+ agricultural data streams** (soil, irrigation, weather, and yield) for actionable decision-making.
- Recognized by the founder for **driving product adoption and developer onboarding**, helping scale the team from 1 intern to **14 engineers** post-internship.

Research and Development Engineer Intern

Jul. 2025 – Aug. 2025

Bonterra

Remote

- Prototyped an **agentic AI system** for nonprofit event analysis, modeling **attendance, retention, and fundraising outcomes**, and benchmarking orchestration pipelines across **5+ agent frameworks**.
- Presented findings to an audience of **40–50 cross-functional staff** (engineering, analytics, and senior leadership), shaping early adoption of AI in nonprofit impact strategies.

Software Engineer Intern

May 2025 – Jun. 2025

TensorStar

Remote

- Owned development of a **secure credential-submission UI** integrated with **HashiCorp Vault**, enabling seamless authentication across **50+ enterprise data sources** (**AWS Glue**, **Snowflake**, **MongoDB**, **Postgres**, **Airflow**, **dbt**, and **Spark**).
- Built real-time frontend systems with **Next.js**, **Redux**, and **WebSockets**, supporting **100+ concurrent beta users** with **sub-100ms latency**.
- Contributed to **30+ reusable UI components** while collaborating with a team of **10–15 engineers** across frontend, ML, and infrastructure.

PROJECTS

Rift Report | *Next.js, Tailwind CSS, TypeScript, Riot API*

Sep. 2025 – Present

- Developed a **League of Legends analytics dashboard** that processes **match histories from 1,000+ games**, visualizing role distribution and performance trends.
- Optimized API calls with **caching and rate-limit strategies**, reducing fetch times by **40%** while delivering real-time timelines, builds, and champion insights.

Mt. SAC Computer Science Club Website | *Next.js, Tailwind CSS, TypeScript*

Aug. 2024 – Aug. 2025

- Redesigned the site for a **900-member CS club**, achieving **100% Lighthouse accessibility**, **sub-1s load times**, and boosting traffic by **10×** with an **80% increase in mobile retention** through improved UX and responsive design.

Git Proof | *Next.js, FastAPI, PostgreSQL, Redis, Gemini*

May 2025 – Present

- Built a **GitHub analytics platform** scaling to **10,000+ commits across 100+ repos**, generating recruiter-ready reports with heatmaps, résumé-grade exports, and AI summaries.

Logit | *Next.js, Tailwind CSS, PostgreSQL, Supabase*

Dec. 2024 – Present

- Launched a workout logging app supporting **500+ sessions logged**, with seamless trend visualization using **react-calendar** and **Recharts**.
- Designed a **PostgreSQL schema** enabling flexible tracking with tags, comments, and dropsets, powering advanced progressive-overload analysis.

Hand Ergonomic Trainer (het.ai) | *Next.js, Tailwind CSS, Firestore, FastAPI, Leap Motion, Python*

Apr. 2025

- Led a **4-person hackathon team** to design and prototype an ergonomic trainer visualizing **120Hz hand-motion data** with Leap Motion.
- Directed architecture and engineered the frontend in **React** and **Recharts** to animate **60+ skeletal joints**, streaming **1,000+ events/sec** via **Firestore + FastAPI**.

TECHNICAL SKILLS

Languages: TypeScript, Java, C++, SQL, Python, JavaScript, HTML/CSS

Technologies: Next.js, React, Tailwind CSS, Prisma, FastAPI, Redis, AWS Lambda, Palantir Foundry, Supabase, Vercel

Methodologies: Agile, Scrum, Kanban, Sprint Planning, Code Review, CI/CD
